

REMARKS

Applicants acknowledge the Final Rejection of patent application "A METHOD TO SYNCHRONIZE DATA AND A TRANSMITTER AND A RECEIVER REALIZING SAID METHOD", serial number 09/280,435, filed on March 29, 1999.

The Examiner requested a substitute specification excluding the claims. The applicant submits the requested substitute specification, which incorporates the corrections included in this amendment. These corrections are typographical in nature and are therefore minor in character and do not affect the scope of the specification.

Claim 35 is rejected under 35 U.S.C. 102(e) as being anticipated by Fraser US patent No. 5,894,476. The Applicant cancelled claim 35.

Claims 39 and 40 are rejected under 35 U.S.C. 103(a) as being anticipated by Fraser US Patent No. 5,894,476. The Applicant cancelled claims 39 and 40.

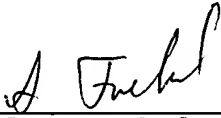

The objections of the Official Action of April 16, 2004, having been obviated by amendment, withdrawal thereof is requested, and passage of all the allowed claims to issue is earnestly solicited.

This amendment is made without prejudice, and does not mean Applicants agree with the Examiner's rejections. Applicants reserve the right to file a continuation application on the rejected claims and any new claims that Applicants deem appropriate.

Respectfully submitted,
